

Ship to Shore Reporting

Target release	April 30, 2024
Epic	🔖 ST-2473: Ship to Shore Reporting TO DO
Document owner	@Jauhar Nurandyo
Designer	@Karen
App	@Ilham Nasution @Handiani
BE	@Kresna Budi @Andreas Widjaya @Mohamad Fadli
QA	@Muhammad Azmi Jaisyurrohman
Reference	6-Months Milestone & Scope : 🔗 Titip - 6 Month Plan

🎯 Objective

TITIP aim to improve vessel report efficiency and data accuracy by enabling vessel crew to directly report to admin on shore. Utilizing our mobile apps that also act as a tracking device, we aim to simplify reporting and tracking process by doing enhancement on mobile apps and our platform.

⚠️ Scopes

Project scope includes :

1. Establish a mobile apps that can be used offline:
 - a. Allow crew to complete form without network connectivity,
 - b. Save the form progress and sync the data once connectivity restored.
2. Mobile apps & web port form data integration:
 - a. Voyage Report data inputted by the crew to be shown in Auto Monitoring,
 - b. Voyage Report completed by crew can be downloaded
 - c. Integrating form completed by crew or port agent to Auto-Reporting Metrics.

⚠️ Out of Scope

1. Mobile GPS Tracking
2. Auto Scheduling

👤 User interaction and design

	And the form will be dynamic according to the destination of the vessel (loading/discharging), And assigned field to crew will appear in mobile app, Design (WIP): Entrypoint: https://www.figma.com/file/OjngKH6P89DMY4v5PTTAFO/Voyage-Management?type=design&node-id=1072-31589&mode=design&t=hUlvn8UoFvOV0x9q-4 Connect your Figma account Mobile apps: https://www.figma.com/file/ZrXVbGAktDPD0fDVklvtq/Mobile-App?type=design&node-id=1112-5155&mode=design&t=0XeXZi2K0bN11Azv-4 Connect your Figma account		
As a shipowner/charterer, I want to be able to create customize form from the available template. ST-2552: As a shipowner/charterer, I want to view the list of form template that I had created TO DO	Given admin is viewing "Forms" menu, When admin click "Create forms" and click "Template" button, Then admin will be shown the pre-made template and is editable, And admin will be displayed "Form Page Name" and "Apply To" which will be use to determine vessel type or specific vessel as the receiver after admin choose one template, And admin can then add or delete fields to their preferences (except for some number of Voyage Report form as it needed for Auto-Reporting). And admin can also change input/data type from provided options : 1. Free text input 2. Numbers with decimals input 3. Numbers without decimals input 4. Coordinates 5. Date 6. Time 7. Date and time input 8. Checkbox 9. Radio button 10. Dropdown 11. File Upload	P1	 

And the data from the customized form will have their own compiler and can be seen through a reporting graph dedicated to that report.

And the form can only be assign per leg, not per voyage.

And the page will be mobile responsive.

Design (WIP):

As a shipowner/charterer, I want to view the forms that has been completed by crew.

 ST-2530: As a shipowner/charterer, I want to view the forms that has been completed by crew

TO DO

Given crew has completed any form(s) assigned to them,

When admin is viewing the Auto-Monitoring or Group Detail Page,

Then the form assigned to that vessel will be attached in every leg of that specific voyage,

And admin can preview any of the following forms that had been assigned to that vessel on that specific leg (ex. SOF, NOR),

And if admin click one of the form button, they will be directed to the form page that already been pre-filled by the crew on the mobile apps.

And the page will be mobile responsive

Complete Voyage

As a crew, I want to start the vessel scheduled voyage after the ongoing voyage is completed.

Given admin had assigned voyage to the crew,

When crew open the scheduled menu in voyage menu on mobile apps,

Then show crew the voyage instructions assigned to them by the admin,

And add "Start Voyage" button, it will then trigger the vessel status to sailing (departure) on TITIP web and began to track the device.

And the “Start Voyage” button will always be available in every scheduled voyages, it will not dependent on the laycan time,

And the vessel status of that voyage (leg) will not be updated unless the crew click the “Start Voyage” button,

And provide crew with confirmation button to ensure they did not starting the incorrect voyages,

And crew cannot start the voyage unless the ongoing voyages had been completed (the required form had been fulfilled).

Start Voyage

As a crew, I want to view the list of the form that been assigned to the vessel.

 ST-2549: As a crew, I want to view the list of form assigned to me

IN PROGRESS

Given admin had assign form to to the crew,
When crew open the voyages menu,
And click one of the voyages (be it ongoing, scheduled or completed)

Then crew can preview the content of the form assigned to their vessel by clicking one of the form assigned to them by the admin,

And if the specific vessel is scheduled, show only the voyage instructions,

And if the vessel is ongoing, crew can fill out the form,

P0

And if the vessel is completed, crew can edit the inputted form data.

As a crew, I want to complete any form assigned to me.

ST-2563: As a crew, I want to complete the customized form assigned to me

Given admin has assign the crew to fill the form,

When crew open “Voyages” menu and be directed to the ongoing voyage assigned to the vessel,

Then crew will be displayed the voyage data that includes:

1. Voyage ID
2. Laycan
3. Cargo
4. Stowage Plan
5. Shipowners Name
6. Charterer Name
7. Loading Port Name
8. Discharging Port Name.

And crew will be able to choose to complete any form that had been assigned to them,.

And if they click one of the report, direct user to that form page.

And if admin did not make any form yet from TITIP web, by default crew will be shown only Voyage Report which is mandatory to be completed.

And if any of the forms besides Voyage Report are empty and not completed by the crew, they would still be able to complete the leg.

As a crew, I want to be able to use the mobile apps without network connectivity.

ST-2468: As a crew, I want to be able to use the mobile apps without network connectivity.

IN PROGRESS

Given crew is logged in to TITIP mobile apps,
When the signal for connectivity is lost,
Then crew will still be able to use the
functionality of TITIP mobile apps which to
track the device using GPS and complete the
report on their device,

And the reported data will be saved in device local storage,

And when network connectivity restored, the data in local will be prioritized so the form will be pre-filled and not get overwritten by system when the page is refreshed.

And the data will be in sync and integrated into TITIP Web once the connectivity returns.

Design: N/A

As a crew, I want to edit the inputted form data.

ST-2469: As a crew, I want to edit the inputted voyage report data.

IN PROGRESS

Given crew had completed the any voyage report form,

When crew open the voyage page,

Then the crew will be able to edit the completed form by clicking the specific form,

And the form will be opened and if user click edit, pre-filled the form with the existing content from the crew,

And the data in TITIP web will also be updated accordingly,

And crew will still able to edit even when the voyage had ended.

As a crew, I want to setup a password to my TITIP mobile apps account.	Given crew is logging in for the first time to TITIP mobile apps, When they successfully inputted the OTP, Then crew will need to set a password for their TITIP mobile apps account, And the password requirement will be: • Minimal of 8 characters • Contain Numbers • Contain at least 1 uppercase letter • Contain 1 or more special characters (ex.: ! @ # \$ % ^ & * () - _ = + \ [] { } ; : / ? . >) And show success messages once the password had been created, And crew will not be able to access TITIP mobile apps if they have not setup a proper password according to the requirements. And crew will have to use that specific phone number & password instead of OTP the next time they try to login. Design (WIP):  https://www.figma.com/file/ZrXVbGAKtDPD0fDVklvvtq/Mobile-App?type=design&node-id=2534-7118&mode=design&t=A2ncpEqDRVVRtuee-4 Connect your Figma account		
As a crew, I want to reset the password of my TITIP mobile account	Given crew wants to change their password, When crew wants to login to their TITIP mobile apps account, And they click the "Forgot Password" on the login button, Then direct crew to the reset password page in mobile apps, And crew will need to input the OTP sent to their phone number before proceed to the reset password page,		

	And crew will be able to use their old password, with the same requirement, which is: • Minimal of 8 characters • Contain Numbers • Contain at least 1 uppercase letters • Contain 1 or more special characters (ex.: ! @ # \$ % ^ & * () - _ = + \ [] { } ; : / ? . >). And crew will have to use that specific phone number & password instead of OTP the next time they try to login. Design (WIP): https://www.figma.com/file/ZrXVbGAktDPD0fDVklvtq/Mobile-App?type=design&node-id=2544-5284&mode=design&t=A2ncpEqDRVVRtuee-4 Connect your Figma account	
As a crew, I want to change my email address for my TITIP mobile apps account	Given crew had registered their email account to TITIP mobile apps, When crew wants to change their email address,	
As a crew, I want to change my phone number for my TITIP mobile apps account	Given crew had registered their phone number to TITIP mobile apps, When crew wants to change their phone number, And they click edit button on "Profile Information" Then crew will be able to change their phone number, And crew will need to input their password and inputting a valid phone number with minimal of 9 numerical digits only before proceed to save the changes, And crew will be sent the OTP by system to their new phone number, And once they insert the OTP, provide them with success message. Design: https://www.figma.com/file/ZrXVbGAktDPD0fDVklvtq/Mobile-App?type=design&node-id=2492-8354&mode=design&t=jaH25fUHH22BRq52-4 Connect your Figma account
